

Exciting Visit from Hungarian Secretary of State for Technology

Exciting Visit from Hungarian Secretary of State for Technology, Szabolcs Szolnoki !

It was an honor to host Szabolcs Szolnoki, the Hungarian Deputy Secretary of State for Technology, at our SABCA headquarters. His visit underscored his interest in the realm of technology and innovation, especially in drones and space applications.

During his insightful discussions with our team, Secretary Szolnoki emphasized the importance of fostering partnerships to drive technological advancements and strengthen global competitiveness.

We had the opportunity to showcase some of our cutting-edge projects and initiatives, highlighting our dedication to pushing the boundaries of what's possible in the drone industry.

Secretary Szolnoki was particularly impressed by the capabilities of our drones and what we have achieved so far. Also present during the meeting, Euroatlantic emphasized the possibilities to collaborate with the Hungarian drone ecosystem, universities, and SMEs. We also learned that a Drone Test Center is available for our tests. Isn't it amazing?

Thank you, Secretary Szolnoki and Euroatlantic, for your inspiring visit and for your dedication to advancing technology on a global scale. We look forward to continuing our discussions.
